

OPHTHALMIC COLLECTION

Maui Jim provides frames and lenses in-house, ensuring high quality, superior convenience, ultra-fast service, and seamless support from a single source.

ONE Manufacturer | Frames and lenses designed in tandem for perfect integration and superior optics.

ONE Lab | Complete in-house control; Maui Jim supplies both frame and lens.

ONE Point of Contact | Single order entry portal and live Customer Service support.

ONE All-Inclusive Price | All coatings, edging, grooving, drilling included— no upcharges, ever.

ONE Warranty | Both frame and lenses covered under the Maui Jim warranty, guaranteeing complete product coverage.

Lab

Our company-owned, state-of-the-art, fully automated facility ensures that each lens delivers optical excellence. All eyewear is inspected multiple times by highly trained technicians to guarantee top quality craftsmanship.

WORLD-RENOWNED EXCELLENCE

Ultra-fast turnaround time
Less than 2 days in lab.

Industry-leading accuracy
Less than 1% redo rate with a 10-point inspection process.

Zero-waste production
100% waste recycling for sustainable manufacturing.

Advanced automation
Precision equipment and software, ensuring superior quality.

Fully integrated manufacturing process
Maui Jim technology, lenses, and frames.

On-site frame inventory
No need to ship in-store inventory to the Maui Jim lab, saving time and money.

Superior lens production
Exclusive sun and clear lens designs, all produced in Maui Jim's quality-driven, state-of-the art lab.

Frames

Our frames are handcrafted in Italy and Japan from premium materials including titanium, stainless steel, and Italian acetate. With the finest details in design, engineering, and manufacturing, the result is a functional, comfortable, and stylish product built to exceed the highest quality standards.

PREMIUM CRAFTSMANSHIP AND MATERIALS

Meticulous attention to detail
Over 200 steps in production; 60-100 hours of tumbling and polishing per frame, each one individually hand assembled and inspected.

Engineered for exceptional fit
Unrelenting focus on wearability and all-day comfort.

Technical precision. Elegant design. Built to last.

Unique styling combined with the engineering expertise of a world-renowned lens company. Superior construction, balancing aesthetic beauty with structural integrity.

The Aloha Guarantee
Generous warranty and repair services.

Lens Designs

Every Maui Passport lens is crafted for superior visual performance, featuring exclusive advanced digital technology customized to the wearer's unique prescription and frame selection.

Maui Passport Single Vision

- Wider usable area throughout the entire lens
- Customized to individual prescription and frame selection
- Crisper, sharper vision from edge to edge
- Digitally processed for superior clarity and performance

Maui Passport Boost (Anti-Fatigue)

- Custom fit Single Vision lens designed for individuals who suffer from discomfort due to digital device use
- Boost zone improves small font and screen readability
- Relieves digital eye strain with a subtle near power boost (+0.50D or +0.90D)

Maui Passport Everyday Progressive

- For every progressive wearer; designed for everyday activities
- Generous fields of view at every distance
- Softer transition for high level comfort and easy adaptation
- Switch focus effortlessly and smoothly with natural movement

Maui Passport Office

- The optimal choice for screens, reading, and desk work
- Extra wide intermediate and near visual fields (maximized vision range of 15" to 6')
- Switch focus easily and smoothly with no head tilting or strain
- Unbeatable comfort and ergonomics ensuring easy natural vision and posture

Lens Materials

Maui Jim optical lenses are crafted from superior-quality materials, engineered for exceptional clarity and performance.

Lens	Features & Benefits
1.67 Maui Blue Light Protect*	Filters harmful blue light; helps protect against eyestrain, eye fatigue, and other potential health risks, with a slimmer lens profile [^]
1.67 Maui High Contrast*	Enhances color contrast and color definition, makes reading fine print easier, with a slimmer lens profile [^]
1.60 High Index	Slimmer lens profile for higher prescriptions
1.53 Trivex®	Great balance of optical clarity and lightweight impact-resistance
CR-39 Maui Blue Light Protect*	Filters harmful blue light; helps protect against eyestrain, eye fatigue, and other potential health risks [^]

Trivex is a registered trademark of PPG Industries. *Exclusive to Maui Jim. [^]Individual results may vary

All lenses offer unmatched levels of durability, glare reduction, and scratch-resistance by including:

100% UV Protection
